

**Boario Terme 20/21 May 2023**

**IBRA gathering 2023 and stage**

**Subject:**

**VARNISHING AND FINISHING BAMBOO RODS  
Theory, methods and demonstration**

In the program of our association's activities for 2023, the annual gathering which will include the AGM is a key moment and until now we have planned two stages, one of which is on the topic of varnishing and finishing bamboo rods.

In the two days of the annual gathering we will therefore address the topic of finishing and varnishing both from a theoretical and a practical point of view. On both days, a laboratory will therefore be set up with various workbenches where the members will take turns in the practical and theoretical demonstrations of the various methodologies.

The program for the two days is attached.

**The participation to the gathering is free of charge**
